THE KINDLY WORD

Loving words will cost but little,
Journeying up the hill of life,
But they make the meek and weary
Stronger, braver for the strife.
Do you count them only trifles?
What to earth are sun and rain?
Never was a kind word wasted!
Never was one said in vain!

Our position agriculturally is sound.

Our position socially is sound.
Our position politically is becoming sounder.

War in Europe cannot bankrupt America. Rather will it increase the market for our products, raise the financial status of the country to unmeasured heights among the nations of the world, impart an impetus to our aborning mercantile marine and quicken the whole energy and conscience of our people. —New York American.
